WE ARE PART OF YOUR MEDICAL NEIGHBORHOOD!

Patient Centered Medical Neighborhood

A Patient Centered Medical Home (PCMH) is a team approach to providing comprehensive healthcare to patients in a high quality and cost effective manner.

The Medical Neighborhood is an expansion of the PCMH model connecting primary care physicians, specialty practices, hospitals, and other community health services to work together more efficiently in meeting the specific needs of each patient.

Your Role As the Patient...

- Take part in planning your care
- Learn about wellness and how to prevent diseases
- Follow the care plan that is agreed upon and receive the recommended treatment
- Tell us any prescribed or over the counter medications you are taking
- Have all other physicians who take part in your care send us a report regarding your visit to them
- Continue to see your Primary Care Physician for preventive services

My Role As the Physician...

- Provide you with care that meets your needs and fits with your goals and values
- Work closely with your Primary Care Physician and other Specialists to provide coordinated care
- Ensure efficient flow of information, including timely consultations, referrals and test results
- Support enhanced access and patient-centered, high quality care

Welcome!

It is the policy of this practice that all obstetrical patients, new or established, receive prenatal care from all our physicians during your pregnancy. These appointments will rotate through the physicians during the entire pregnancy. Our physicians rotate their "on-call" schedule daily at the hospital, which is why you will receive care from all of them.

Patients cannot choose which physician they want for an obstetrician, nor can they elect not to be seen by any physician.

The delivering physician within our group will be the physician who is "on-call" at the hospital. That will be the same physician you will schedule your post-partum appointment with, and in the case of a cesarean delivery, it will be the same physician you will schedule your post-op visits with.

Patients receiving gynecological care only can select whom they want for their gynecologist. Should that patient become pregnant again, they will begin the obstetrical rotation with all physicians.

I have read this information and understand the office policy.

The physicians of Women's Specialty Associates are also advocates for your unborn child.

During your pregnancy we may be performing random urine drug screenings at the time of your prenatal visits. If your drug screen indicates a positive result, we may find it necessary to withdraw from your care.

You will also be asked to comply with recommended routine obstetrical labs failure to do so will call for your dismissal from the practice.

Physicians of the practice recommend a vaginal exam at each obstetrical visit.

As a record of your consent to said testing, your signature is requested on this form to file into your permanent record.

In the even that you refuse to provide a signature of consent, we will cease to provide care to you, effective immediately.
